## DRAINAGE FOR THE EDUCATION SECTOR

We have a proven track record in the development and provision of drainage to the education sector.

Our comprehensive range of drainage products and systems ensures we can meet your needs whether you require hygienic products for areas such as school kitchens, external drainage for high footfall areas or products that optimise safety for building users.

## APPLICATIONS

Our drainage is used in a diverse range of applications within the education sector including:

- ▶ university campuses
- ▶ school kitchens
- ▶ sports halls
- ▶ changing room facilities
- ▶ swimming pools
- ▶ laboratories

## PRODUCT RANGES

- Modular 125 channel
- Kitchen / Tray channels

## CONSTRUCTION SECTORS

Food & Drink  
Manufacturing

Commercial  
Kitchens

Hotels

Infrastructure

Commercial &  
Industrial

Healthcare

Education

Sport & Leisure

Residential

## RESEARCH-LED PRODUCT DEVELOPMENT

With a commitment to driving improvements in drainage design and performance, ACO makes significant and ongoing investments in research.

Conducted with leading academic bodies throughout the world, our research projects give us a better understanding of the risks of sub-optimal drainage and, by identifying the improvements required in product engineering and design, inform the ongoing development of our product portfolio.

## WHAT ELSE DO WE DO?

In addition to providing high performance drainage products, we also offer a comprehensive range of services to support you throughout the life of your project and, via our in-house technical design team, can develop engineered solutions which are tailored to meet specific requirements.
