PERFECT OPERATION

With our Zehnder original filters you will always make the best choice – we ensure safety, perfect operation, satisfied customers, high-quality and the perfect match to our comfortable indoor ventilation system.

+ ADVANTAGES FOR INSTALLERS

Always on the right side with Zehnder original filters:

- Enjoy peace of mind at all times due to overall customer satisfaction
- Less reclamations from customers due to the perfectly matched components for smooth operation
- Improved image as professional installer with high-quality products and satisfied customers
- Zehnder provides all components for comfortable indoor ventilation systems from one source

Here's how to recognize:

Zehnder original filters always have a clear Zehnder logo placed on the front of the filter.

Zehnder ORIGINAL FILTER

Zehnder ComfoAir Q

Original Zehnder filters: Sustainable, quiet and energy-efficient

Enjoy a healthy indoor climate with Zehnder original filters, which last longer than conventional filters due to the highest quality. Moreover, Zehnder original filters are not only significantly quieter, they're also more energy-efficient.

+ ADVANTAGES FOR END CUSTOMERS

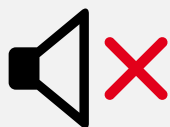

Longer life cycle

Longer life cycle is ensured due to 20% increase in fins as well as the impressive stability of our products.

Highest quality

Zehnder original filters show significantly less pressure drop than conventional filters due to their high quality.

Quieter

With original filters, Zehnder ventilation systems are virtually inaudible. Thus, original filters reduce stress caused by noise.

Optimal hygiene

Exclusively Zehnder original filters let clean and fresh air into your living room and considerably reduce the amount of unhealthy particles in your home.

More efficient operation

Only Zehnder original filters ensure perfect operation of your comfort ventilation unit and highest energy efficiency.
