

CPD

Safe Access All Areas | Floor Access

RIBA Core Curriculum Design, construction, technology

Knowledge Level General awareness

The seminar covers the different design and specification considerations that need to be addressed when choosing a solution to access building services concealed under any type of floor finish quickly, safely and with the minimum of disruption to the operation of the building.

 **HOWE GREEN**

Who is the CPD for?

Architects, specifiers, contractors, facilities managers, building services professionals wanting to understand how to safely and easily access building services concealed under flooring.

5 reasons to book the Safe Access All Areas | Floor Access CPD

- 1 Benefit from 35 years of expertise and knowledge in the development of specialised floor access solutions distilled into a 1 hour seminar.
- 2 Gain an understanding of the key design considerations when specifying floor access covers, from performance to aesthetics.
- 3 Discover how to comply with Health and Safety legislation and ensure the method of floor access remains safe and secure.
- 4 Meet the affable and knowledgeable Howe Green Business Development Managers, Chris George and Richard Fletcher, who will deliver the CPD seminar at a date, time and location of your choice.
- 5 Earn double CPD points on a RIBA approved seminar that focusses on the RIBA Core Curriculum topics of design, construction and technology.
