GEC ANDERSON® PRESSED RECESS

A flat, recessed, area is pressed into the worktop to provide a wet zone or catchment area. Sink bowl(s) sit within the pressed recess.

- Any size
- Any position
- Variable corner radius (minimum 10 mm)
- 4 mm deep

Please consult GEC Anderson Ltd technical literature or website for further details. GEC Anderson can also provide a specification service for both standard and bespoke designs. It is recommended that they are consulted early in the design process. CAD drawings are available in dxf and dwg formats.
