

The Butler Lift

Service lift by Stannah

Stannah

Imagine having a butler
in your own home...

Technology in our kitchens is growing year on year. We have machines aplenty – all designed to make our lives a little easier. So it's no surprise that the trend for building high-specification, luxury homes, often arranged over multiple floors, sees home owners considering the convenience of a service lift. It will quickly become an invaluable addition to your life. It's the ultimate statement, your very own butler service in your own home.

At Stannah we have been providing lifts for generations, in fact for over 150 years. We have been constantly innovating in order to help make our customers' lives that little bit easier. Bringing together tried and trusted engineering with the latest in lift product design, our Stannah Butler lift provides easy movement of goods, food, beverages and so much more over two or more floors at the touch of a button – what a luxury! Discover how our Butler lift can bring style and easy living into your home.

Welcome to the Butler lift

The luxury of a service lift – your very own butler

We have been selling Europe's best selling domestic service lift for over 40 years, so we know it is reliable and loved. The Butler lift will provide great service over several floors and is a fabulous addition to any home. The beauty of installing a service lift is its adaptability. The lift is supplied in its own structure-supported shaft and each landing entrance can be on any side of the shaft, making it remarkably flexible. Imagine the ease of moving shopping to an upstairs kitchen; food to any level in the house; clearing away used dishes and sending them back to the kitchen all in one go. The possibilities are endless. Entrances are via rise and fall shutters so the lift does not encroach into living space at any level. Simply load the lift at one level and send to its destination. Installing a service lift will be an investment in your property and a unique selling point – you'll soon wonder how you lived without it!

- Carry loads of up to 100kg at the touch of a button
- Can travel up to 30m with up to 12 stops
- Fully automatic with call and send facilities at each landing
- Very quiet with efficient high-power motor
- Structure-supported ready-made shaft clad to your specification
- Can be 'hidden' behind doors at most levels if required
- Can be installed in just a few days, depending on the number of stops
- Standard models available from stock

It's all in the details

Now you see it...

...now you don't!

Make serving your guests easy, whatever the floor

Integrate easily and discreetly into your home

The Butler lift – a fantastic addition

Stannah service lifts are installed in thousands of hotels, restaurants, coffee shops, bars, pubs and shops all over the UK – often working continuously more than twelve hours a day. Our Stannah Butler lift is our domestic service lift and is installed in hundreds of private dwellings. It is invaluable for living over several floors, taking away the need to carry awkward loads over several flights of stairs. The performance of the lift and its fantastic reliability pleases all our domestic customers, it simply makes busy lives a little easier every day. Of course, when guests come for dinner, it's the star attraction too!

Key features include:

- Rise and fall shutters with waist height serving
- Removable shelves for easy cleaning
- Optional heater in lift car for moving hot food
- Call and send controls on each landing
- Visual and audio indicators at each entrance
- Easy-clean, hard wearing stainless steel or grey enamel finish
- Choice of colours available for rise and fall shutters

Unrivalled service from Stannah

Stress-free installation

You can relax from the moment you choose your Butler lift, simply rely on us to make the whole process as smooth as possible. We will work with your architect and /or builder to ensure any pre-installation building work is completed in preparation for your lift. Our expert Stannah installers will agree installation at a time to suit you. This will typically take between 3-5 days plus builder's work and decoration, depending on your unique requirements, and only once your home is looking perfect will your lift be handed over to you, to enjoy every day.

Continued care

At Stannah, after-sales service is our business too. We look after more than 90,000 lift products across the UK from eleven local service centres, nationwide, so a Stannah service engineer is never far away. Your new Butler lift is supplied with a one-year warranty for your peace of mind. This includes four service visits. When your homelift warranty is due to end, your local service branch will be in touch with details of our service plans. Just like your car, your lift needs a little engineering expertise to keep it working to its full potential. For additional peace of mind, our own UK-based call centres are available 24/7 to offer practical, helpful support around the clock.

Enjoy your very own butler service with our Butler lift
