

# QT1

## Handsfree Audio Telephone

### Versions

QT1 - Standard unit

### Dimensions (mm)

W:90 H:138 D:23

**The QT1 is a compact wall-mounted hands-free audio door telephone designed for seamless integration with Entryphone's Q series 2-wire system.**

Featuring a minimalist design, this audio-only model provides clear, hands-free communication and is equipped with essential touch-illuminated switches for on/off, two door releases, and a ring-mute function. Users can easily customise settings for ringer volume and select from twelve different ring tones, ensuring a tailored user experience.

With its straightforward two-wire bus cabling system, the QT1 offers effortless installation, making it an ideal choice for both new installations and upgrades to existing systems.
