Visually discreet, concealed metal riser doors for maintenance-free access to building services behind walls, for non-fire rated applications

Profab Access' INTEGRA 4000 Series range of riser doors provides access into jointless plaster, plasterboard wall and masonry walls where access to mechanical services is required. Specified in commercial, residential and public buildings where low maintenance access is required behind walls, they deliver the highest standards in security and practicality with minimal compromises on design.

### » BENEFITS

- Virtually invisible, for a clean, discreet design
- Seamless aesthetic finish
- Fast and simple to install, lockable
- Etch primed for decorating on site, to match adjacent finishes
- Single door (SD) and double door (DD) configurations
- High performance range, for vertical use with frame and lock options
- Fully recyclable at end of life

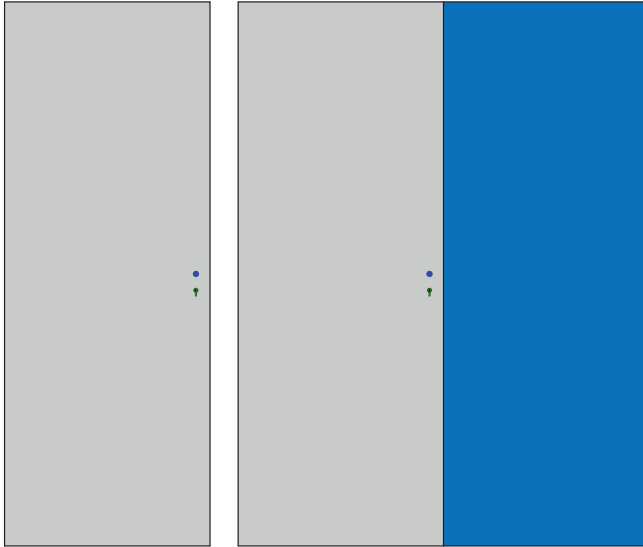

**SAFE ACCESS ALL AREAS**

## » TYPICAL DOOR CONFIGURATIONS

SD: Single Door

DD: Double Door

■ Locking door leaf

■ Non-locking door leaf

Full height single and double doors.

### Construction

- CNC manufactured to order
- 1.2 mm frame and 1.2 mm door in electro-galvanised mild steel
- 28 mm door depth
- Concealed continuous piano hinge
- Concealed 3 point lock (3PL) or Euro profile high security lock (3HS)
- Beaded frame (BF) or 25 mm picture frame (PF) to suit finishing requirements
- 3 mm even frame / door gap adjustment
- Fully powder coated matt RAL 9010, suitable for finishing on site
- CNC manufactured in the UK to ISO 9001:2015 and 14001:2015

### Performance

- 23 dB acoustic shielded as standard

### Options

- Single door (SD) and double door (DD) configurations
- Deep plaster frame (DPF) and dutch fold frame (DFF) on request
- EPDM gasket seal
- Euro profile high security cylinder key lock (3HS)
- Visible or concealed escutcheon with suction cup
- Different ironmongery options available
- Left or right hand opening
- Door closers
- Other RAL paint colours and textures available

## » MANUFACTURED TO ORDER

High security 3 point lock

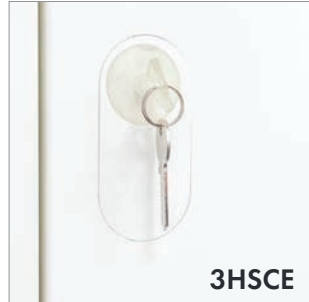

Paint

RAL

## » MULTI-POINT LOCKING OPTIONS

### **3PL: THREE POINT LOCKING**

- i. T bar key: used to unlatch and pull door leaf open
- ii. Locking assembly: engages top, bottom and lock sides
- iii. White plastic collar and plug as standard (stainless steel collar optional)

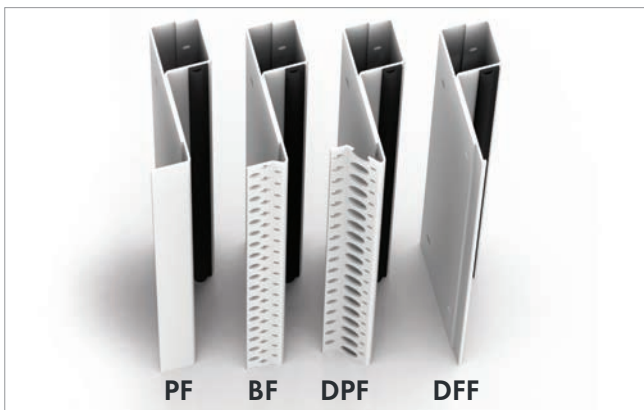

### **3HS: THREE POINT HIGH SECURITY LOCKING**

- i. T bar key: used to unlatch and pull door leaf open
- ii. Secondary locking
- iii. Euro profile cylinder lock
- iv. Locking assembly: engages top, bottom and lock sides
- v. White plastic collar and plug as standard (stainless steel collar optional)

### **3HSCE: CONCEALED LOCKING**

- i. Magnetic escutcheon sits over the face of the lock for a concealed aesthetic finish
- ii. Easily removed with a small rubber sucker

## » FRAME PROFILES

Choice of frame profiles to suit application

### **PF: PICTURE FRAME**

Ideal for retro fitting and finished areas

### **BF: BEADED FRAME**

Ideal for tape and jointing or skim-coat plastering

### **DPF: DEEP PLASTER FRAME**

Ideal for wet plastering/float and set

### **DFF: DUTCH FOLDED FRAME**

Ideal for masonry and blockwork
